

## ebs NFP Easy — Tailored for Not For Profits

A powerful and flexible integrated suite of Microsoft technologies keeping your NFP organisation agile, responsive and competitive.

The Not for Profit landscape is a complex operating environment with rapidly changing regulatory and funding models, increased pressure to disseminate accurate data and reporting, whilst managing multiple funding streams and lowering overhead costs.

### Why choose NFP Easy?

#### Tailored NFP Business Solution

- Eliminates fragmented technologies and silo based operations, capturing data from one interface
- Increases organisation transparency and significantly reduces overhead costs
- Meets NDIS reporting requirements (stakeholder and acquittal reporting)

#### Intelligent Real-time Solution

- Tailored suite of integrated financial and operational centric solutions (Microsoft Dynamics 365, 0365 with Power BI)
- Provides unprecedented efficiencies and business insights to stay competitive
- Increases functionality and automation across your entire NFP organisation

#### Connecting Your Environment

- Transforms your mobile workforce into a connected team
- Integrated business management software streamlining and simplifying processes and tools
- Securely access real-time accurate information from anywhere, anytime via the cloud

#### Trusted and Secure NFP Solution

- A secure, more responsive cloud solution that grows as you grow
- Fast and simple to implement, used widely across the NFP sector Australia
- Minimise disruption and expand business capabilities
- Data centres located on Australian soil

# NFP Easy is a flexible and comprehensive tailored solution for Not For Profit organisations unique needs and requirements.
